This process allows conditions or restrictions to be placed on an approval that would minimize impacts to the surrounding area.

Swimming pools are an accessory use allowed in the R-Marvin Residential District, provided that the pool is located in the rear yard and the following setback requirements are met:

Swimming pool, measured from water's edge	20 feet rear yard 20 feet side yard or the principal structure on the street side
Pool Equipment	20 feet side and rear yard
Pool Decking	15 feet rear yard 20 feet side yard or the principal structure on the street side
Pool houses, cabanas, and the like	See §151.054 (B)

All swimming pools located on lots where a rear yard abuts a side yard of an adjacent lot shall be subject to a conditional use permit as provided for in § [151.100](#).

The proposed pool complies with all setback requirements, having a 144' rear yard setback (minimum 20') and 67'/48' left/right side setbacks (minimum 20'). There is existing heavy screening including evergreens. Attached is the zoning permit the applicant has applied for with this additional information.

Additionally, the applicant has secured verbal testimony (requested to have it in writing) of the neighbors whose side yard is abutting to the rear yard of his property.

SUBJECT: Consider Call for Public Hearing for Consideration of The Gates at Marvin Preliminary Plat and Construction Plans

Actions Requested by Village Council

Staff request the Village Council Call for Public Hearing on September 14th at 6PM at Village Hall for Consideration of The Gates at Marvin Preliminary Plat and Construction Plans. A Public Hearing is required to approve the Preliminary Plat and Construction Plans for the Rural Subdivision.

Background

LOCATION:

18.0940 Acres located on the corner of Waxhaw-Marvin Road and Stacy Howie RD (Parcel Number: 06228003L)

Jones Homes has submitted their preliminary plat and construction plans for a 6 Lot Rural Subdivision. Planning Staff has determined that the submitted plans, after a round of revisions, meets all requirements of the Marvin Code of Ordinance.

Currently, everything in the submitted construction plans other than the Landscape/Tree Mitigation Plan, have been reviewed and approved by the Village Engineer. The applicant is revising the plan and will have a final updated set of plans prior to the hearing.

Following the hearing and review of the plat and plans, Council will vote to approve or deny or request additional relative information and changes to the submitted documents. The final approved Construction Plans will then be reviewed by the Staff, the Village Engineer and all applicable outside agencies again if any changes are made. So long as those revisions do not affect the zoning regulations in a way that reduces the quality, the construction plan need not be reviewed again by the Planning Board and Council.

Recommendation

Planner's Recommendation: Staff recommends Village Council call for Public Hearing on September 14th at 6PM at Village Hall for Consideration of The Gates at Marvin Preliminary Plat and Construction Plans. A Public Hearing is required to approve the Preliminary Plat and Construction Plans for the Rural Subdivision.
