Questions from: Active Waste Solutions LLC.  
submitted to: both Municipal Contacts  
Marvin - Christina Amos, Village Manager  
Town of Weddington - Lisa Johnson, Town Administrator

Date: April 19, 2021

- 1) When will answers to all questions be provided to all bidders? When will any or all addendums be posted on the Village of Marvin and Town of Weddington websites? Please supply exact dates of extensions.
- 2) With regards to the section - Interviews and Presentations - how much notice will be given any bidder?
- 3) With regards to item 2f) Operational Experience - there is actual data required as well as subjective information, which is weighed more? What is the percentage of importance?
- 4) With regards to Christmas Tree Collection Option 8 - Who will be monitoring residents who put out trees past the last day of January? Residents who put out artificial trees? What is the process for dealing with these residents not adhering to the rules?
- 5) With regards to the item Roll-out carts, why was the specific color GREEN listed for solid waste containers and not simply - "the color designated by the Municipality"?

Questions submitted by Active Waste Solutions cont. pg 2

- 6) With regards to Section 3 - Service Requirements  
What is the schedule for providing reports to the municipalities in PDF and Excel Formats? What is the process for review? What timeline is there for course correction?
- 7) With regards to the item "Calendars" or "Calendar", who is responsible for distributing these calendars? What is that process?
- 8) With regards to Liquidated Damages / Negative Adjustments - section 4 - "... or reporting unresolved complaints as having been resolved," who determines realtime resolution? Is it the resident? The service provider? The village manager? The Town administrator? The camera?
- 9) With regards to Section 6: Equipment - item 1 - "A preference will be given for Compressed Natural Gas Vehicles", what is the Village of Marlin and the Town of Waddington's plan-plans for developing fueling stations for the CNG trucks? When will construction start? When will the comprehensive plan be given all potential bidders?
- 10) With regards to Section 8: Disposal and Processing Facilities - "... must have established buyers or markets for recyclables," does the village and town have accurate records of recyclable generation, volumes, projection for increases? When will these be provided bidders? Who is paying processing fees?
